

Questionnaire to design your cutting machine

This data sheet will be used to design the ground laying execution of your cutting machine that suits your tasks best. Our technical department will work out based on this data a detailed offer.

Your address

date: _____
person in charge: _____
Telephone: _____

Working range

Working width/mm: _____

Working length/mm: _____

Thickness of material/mm : from _____ to _____ mm

Autogen

Number of burners : 1 2 3 4

Type of gas : acetylene propane other

Plasma

Number of burners : 1 2 3 4

External programming

Is a software to create cutting programs DXF / CAD already available?

Yes / no

Data transfer

DNC

Additional / Options

Optional height control by capacity control

Optional height control by arc load

Remote controlled burner ignition

Software CNC CUT
